

“一带一路，英语开路”

Singhai and HNCT Set Up the First “Maritime English Training Base” in Zhengzhou

On June 11th, the first “Maritime English Training Base” in Zhengzhou, was jointly launched by Singhai Marine Services and Henan College of Transportation (HNCT).

At the opening ceremony, leaders of Singhai and HNCT affirmed the cooperation being a big, albeit concrete stride by both parties in widening the employment prospects of future Chinese seafarers - by facilitating the students' early access and acquisition of an international outlook, enhancing the communication skillsets, and increasing the depth of their elementary maritime education.

Since its inception, Singhai has invested substantial efforts in catering to maritime training for its clients and, has consequently helped produced generations of outstanding Chinese maritime talents for the international shipping community. Through this inaugural cooperation with HNCT, Singhai will bring its professional maritime English training resources to the central plains of China, and be the catalyst for more Chinese seafarers to move from the inner coasts to the far-reaching shores of the world.

The Maritime English Training Base will be open to schools and the wider society in Zhengzhou. With systematic curriculum design and a highly experienced teaching team comprising linguistic specialists and senior maritime practitioners, it is poised to provide a series of professional, comprehensive, and in-depth maritime English enhancement modules. The two-week high intensity course will cover basic knowledge of maritime English, maritime terminology, tips for interview with foreign ship owners and other relevant aspects, all of which are designed to help students improve their communication skills and professionalism under realistic maritime scenarios, overcome the language barriers and, in so doing, improve their chances of gaining wider career opportunities.

Singhai has always been a strong proponent of the promotion and permeation of all-level exchanges in the maritime arena. The cooperation with HNCT is yet another of Singhai's landmark achievement in maritime talent cultivation and college-enterprise cooperation. In the future, we will continue to explore more of such cooperative work models and persist in contributing our strength towards nurturing talents for the maritime industry.
