

Singhai Completes Crewing for Newbuild Chemical/Oil Tanker "PACIFIC HORIZON"

Singhai has successfully supplied a full multinational crew for the 50,000 DWT newbuild chemical/oil tanker *PACIFIC HORIZON*, owned by Cathay Technical Limited. The 23 seafarers boarded on January 13 at Lianyungang Wuzhou Shipyard — the third PACIFIC series vessel crew manned by Singhai.

The partnership began in 2025. In under a year, Singhai has provided full crewing for three advanced newbuilds:

- *PACIFIC PIONEER* (July 26, 2025)
- *PACIFIC EXPLORER* (Oct 17, 2025)
- *PACIFIC HORIZON* (Jan 13, 2026)

All are 50,000 DWT oil/chemical tankers with MAN BW-ME electronic engines.
Crews are multinational — from China, Malaysia, Indonesia, Bangladesh, Myanmar, and beyond.

Singhai adds value through:

- **Precision manning** — leveraging our Asian network and digital tools to build cost-effective, high-performing multinational teams.
- **Pre-joining safety training** — delivered jointly with the owner's technical team to ensure rapid compliance.

- **End-to-end support** — from recruitment to onboard management, reducing owner burden.

The owner's shore team provides solid backing with rigorous inspections and real-time support. At sea, Singhai crews deliver technical skill, adaptability, and a strong safety mindset — executing routines, drills, and cross-cultural collaboration with discipline.

Every safe voyage is a shared effort. Singhai is proud to support Cathay Technical Limited's PACIFIC series with tailored, full-cycle maritime HR solutions — empowering owners and seafarers alike to drive global shipping forward.
